INSTALLATION NOTES:

The following notes must be considered prior to installation of the product:

- * The luminaire has been designed to operate in accordance with the specifications listed above; please especially note the electrical input, operating temperature and ingress/impact protection specifications and ensure that the luminaire will only be operated within a suitable environment.
- * The luminaire must be securely fixed to a suitable surface or structure which is able to bear the luminaire weight and provide the necessary restraint under seismic loading according to NZS 4219.
- * The luminaire must be installed such that adequate space is available for ventilation to prevent overheating.
- * Exposure to UV (i.e. direct sunlight) over an extended period may cause discolouration of the diffuser and/or luminaire body.
- * The luminaire is not suitable for marine environments nor for hazardous environments.
