# HYPERADAPTIVE:
REWIRING TO BECOME AN AI-NATIVE ORGANIZATION

You can't integrate AI into a 20th century organizational model and expect 21st century results.

*The **Hyperadaptive Model** proposes a **new way of organizing**, spread over five stages, to move your organization from "random AI experiments" to becoming an AI-native, hyperadaptive organization.*

THE HYPERADAPTIVE MODEL

Five Capabilities of Hyperadaptive Organizations

1. Decisions Augmented by AI
2. Integrated Learning Loops
3. Value Orientation
4. AI-Powered Sensing
5. Continuous Adaptation

	STAGE 1	STAGE 2	STAGE 3	STAGE 4	STAGE 5
Six Stages of AI Integration	**Foundation**	**AI Augmentation**	**Agentic AI**	**Scaling AI**	**Hyperadaptive AI**
	Lay the data & ethics groundwork	Boost individual throughput	Hand tasks to smart agents	Shared platforms for automated workflows	Real-time sensing and response engines
Support Structures	**AI Councils** **AI Leads**	**AI Activation Hubs** **AI Knowledge Engine**	**AI Impact Hub**	**AI Impact Hub (cont'd)**	**AI Telemetry Engines**

Built on 20+ years of organizational research. 4+ methodologies. 100% practical focus.

HYPERADAPTIVE SOLUTIONS

AI is Fast. Your Organization Isn't

Stuck Between Pilots and Progress? Let's Talk

You're not behind.
But without the right support, it's hard to move forward.

This 60-minute call is for leaders who have AI licenses,
rolled out pilots, **and still feel stalled.**

We'll help you make sense of where you are and
what to do next.

In this **working session**, we will:

- Clarify your current state
- Surface the missing support structures
- Identify areas to activate next
