

“With the In Situ Modular Sofa, we wanted to combine the functions of modularity with the beauty of simple, elegant lines and a deep comfort. We sketched a profile that runs along the seat and back of the sofa to subtly hide the visual elements of modularity, giving it a unique character while bringing the individual modules together for a complete appearance. This is paired with grand, sculptural lines and the inherent comfort of its soft seat.” — Anderssen & Voll

SCULPTURAL COMFORT

The name of In Situ refers to site-specific sculptures that have been created in the place in which they are to be shown. In a similar manner, you can create your own In Situ Modular Sofa to the exact aesthetic and functional needs of your home.

The design combines the grandeur of iconic Italian sofas with the refined simplicity of Scandinavian design and a deep, inviting seat — it is the heart of any space.
